

CAPABILITY STATEMENT

Mission Statement

VALOR Construction is a verified SDVOSB full service General Contractor with self-performance capabilities. We work directly with owners, architects, and clients to monitor progress efficiently, implement proven management processes, and use established USACE/NAVFAC quality control systems, to keep projects on schedule and completed per expectations.

Core Competencies

- 🇺🇸 Schedule and Cost Monitoring
- 🇺🇸 Materials Procurement and Handling
- 🇺🇸 Management & Coordination of Qualified Subcontractors
- 🇺🇸 Safety Management and Compliance
- 🇺🇸 Quality Control Management and Compliance
- 🇺🇸 Project Management
- 🇺🇸 Commitment to the Partnering Concept
- 🇺🇸 Self-performance of Flooring, Roofing, Windows, Siding, Doors & Hardware, Tenant Fit Out.

Past Performance

VALOR offers over 50 years of combined experience overseeing projects for government and commercial clients including; The Dept. of Veterans Affairs, Executive Office of the President of the United States, General Services Administration, NAVFAC, Smithsonian, Dept. of Interiors, MDANG, Arch Diocese of MD, etc. Our previous work experience is diverse with project sizes ranging from \$50K to \$3M. Our team members are capable of managing multiple projects and task orders simultaneously, specializing in Tenant Fit Out, ADA Compliant Bathrooms, Roofing, Windows, Siding and Doors, Mold and Asbestos removal, Flooring, Historic Renovation etc. Our Team Members have successfully completed numerous projects and task orders by providing excellent customer service, attention to detail, and commitment to the partnering concept.

Differentiators

Accreditations: Being a Service Disabled Veteran Owned Small Business (SDVOSB) allows us to help our customers satisfy their SDV set aside and small business utilization requirements.

Quality: Due to our Management Team's vast experience including USACE and NAVFAC projects, we have developed an effective and universally compliant corporate quality control program, that minimizes rework and keeps the project on schedule from NTP through completion.

Safety: VALOR Construction uses a combination of OSHA & USACE EM385-1-1 Safety rules, guidelines, and regulations, enforcing the more stringent of the two when applicable, in order to ensure our job sites are the safest possible work environment for our clients, employees, and subcontractors.

Service: Being a small firm allows us to provide the focused attention needed to deliver an outstanding project experience to our customers, while fulfilling their project requirements.
